**DETAILED ACTION*****Drawings***

The drawings are objected to because each sheet must include a top margin of at least 2.5 cm. (1 inch), a left side margin of at least 2.5 cm. (1 inch), a right side margin of at least 1.5 cm. (5 /8 inch), and a bottom margin of at least 1.0 cm. (3 /8 inch), thereby leaving a sight no greater than 17.0 cm. by 26.2 cm. on 21.0 cm. By 29.7 cm. (DIN size A4) drawing sheets, and a sight no greater than 17.6 cm. by 24.4 cm. (6 15 /16 by 9 5 /8 inches) on 21.6 cm. by 27.9 cm. (8 1 /2 by 11 inch) drawing sheets. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ma (US 5,791,302).

As to Claim 1, Ma discloses a variable compression ratio connecting rod 10 for an internal combustion engine, comprising: a large end adapted for attachment to a crankshaft; a small end adapted for attachment to a piston 12; and an adjustable four-bar system 20,22,20',22' extending between and linking said large end and said small end, so as to permit the length of said connecting rod to be adjusted.

***Allowable Subject Matter***

Claims 10-16 are allowed.

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection. Ma discloses all four links 20,22,20',22'

in the two pairs pivot about the gudgeon pin 14 that is mounted in the piston and is retained by circlips.
